## AMENDMENTS TO THE CLAIMS

Please add or amend the claims to read as follows, and cancel without prejudice or disclaimer to resubmission in a divisional or continuation application claims indicated as cancelled:

- (Currently Amended) An acupressure ring for use on [[the]] an outer finger, and
  comprising two or more rings having a visual indicator visible when the rings
  are worn on the outer finger and a projection extending inwardly from an inner
  surface of said acupressure ring, the projection being approximately orthogonal
  to [[a]] the visual indicator, wherein said visual indicator is provided by a break
  in said acupressure ring.
- (Previously Presented) An acupressure ring according to claim 1, wherein said projection has a mid-point, which is approximately 90° around said acupressure ring from said mid-point of said visual indicator.
- (Previously Presented) An acupressure ring according to claim 1, in which the
  cross section of the projection is round, cylindrical, conical, square or
  rectangular.
- 4. (Previously Presented) An acupressure ring according to claim 3, wherein said projection is a single projection.
- (Previously Presented) An acupressure ring according to claim 4, wherein the acupressure ring is comprised of two rings.
- 6. (Previously Presented) An acupressure ring according to claim 5, wherein a bridging member connects each one of the rings.
- 7. (Cancelled)
- (Previously Presented) An acupressure ring according to claim 1, wherein the distance that said projection extends from said inner surface is from I to 4 mm.
- 9. (Previously Presented) An acupressure ring according to claim 8, wherein the distance is from 1.6 to 2.0 mm.

10-14 (Cancelled)
